

Have any cow/calf pairs been purchased? ____ Yes ____ No

3.a. If yes, how many pairs _____ how many calves? _____

3.b. Are the pairs/calves ASV from another PVP program? ____ Yes ____ No

3.c. If "YES", what is the name of the PVP program? _____

4. Where are ranch records kept? _____

❖ **Source and Age (SAV)**

(basic recommendations for records to keep and procedures to perform):

- a) Tag all cows and calves with a unique number in your herd. Tag calves at or near birth.
- b) Keep detailed calving records. This includes calf ID, dam ID calving date, and sex of calf. At the very least, record the date the first calve was born and the day the last calf was born. Be able to differentiate calves born in different calving seasons.
- c) Keep records of all cattle sales
- d) Keep all records in a safe, readily accessible location for minimum of three years
- e) Cattle will need to be tagged with an RFID (electronic) ear tag. The electronic tag serves as the conduit for transfer of information for the PVP. The tag must be associated with an individual animal and its birth premise, and therefore must be applied by the cow-calf producer prior to commingling with cattle from other sources.

1. Has the home raised calves ever left the ranch of origin? ____ No ____ Yes – Where?

2. Where are the home raised calves located now? -

3. Animal Identification (acceptable identification methods are visual and/or electronic tags, brands, tattoos, etc.)

____ Ranch Tag / Visual Tag (color, #, etc.) _____

____ Ranch Brand & location (write out brand) _____

____ EID Tags (range/single) _____

____ Ear Notches/Tattoos (describe) _____

____ Other (describe) _____

Antibiotic/Vaccine Information:

3. Do you store antibiotics on location? Yes No
If Yes, where? _____
4. If yes, what antibiotics do you have on hand or will purchase?

5. What information is recorded when an animal is treated with antibiotics?

6. Describe how you identify an animal that is treated with antibiotics?

7. Do you have a VFD (Veterinary Feed Directive)? Yes No
- a. If “yes”, who is the Veterinarian issuing the VFD? _____
b. Who is the feed mill/ supplier who also has your VFD? _____
- 7a. Who administers / treats cattle with antibiotics? _____
- 7.b. Who records the treated information? _____

❖ **NHTC and Hormone Treatment Information**

8. Do you have any growth promoting hormones/steroids - fed, oral, or injected at this location at any time throughout the year?
 Yes
 No
If yes, you must have available a list of all HPGs and develop and maintain a written procedure for accounting for the acquisition, inventory use, and disposal of all HPG used on the premises. The procedures must ensure that feeds treated with HPGs do not contaminate feed for program animals. A BEEFTRAXX auditor will verify onsite that applicable records are maintained and up to date.
9. Describe how you identify or segregate any animal treated with GPH from the rest of the herd.

10. Will cattle that are treated with GPH be kept in the Source & Age Program?
 Yes
 No

10.a. Who administers the GPH? _____

10.b. Who, Where and How is the use of GPH recorded? _____

Feeds and Feeding Information

11. List all feed used or stored on the ranch location and their source (*including hay, supplements, minerals, salts, pre-mixed or commercial products, etc.*)

Product	Source/Manufacturer	Product ID

Hormone Feeds:

Product	Source / Manufacturer	Product ID

Mineral Supplements:

Product	Source / Manufacturer	Product ID

Protein Supplements:

Product	Source / Manufacturer	Product ID

Medicated Supplements:

Product	Source / Manufacturer	Product ID

Other (Please List):

Product	Source / Manufacturer	Product ID

12. Do you give your cattle any feedstuffs with animal by-products, antibiotics, supplemental hormonal growth promotions and or ionophores?

Yes

No

If yes, please indicate if you have any of the feedstuffs listed below onsite by checking the box:

Ionophores:

Bovatec Rumensin GainPro Cattlyst

Hormone Feedstuffs: *fed, oral, or injected*

MGA HeiferMax Optaflex Zilmax Ralgro

Animal By-products: *Any type of by-product from fish, birds or mammal*

Tallow/Animal Fat Fish Oil Feathermeal Other (list)

- ✓ If you feed natural AND conventional cattle, please indicate below how you separate, clean or maintain no cross contamination of your feeding equipment:

Describe how you maintain feeding bunk systems to make sure there is no cross-contamination techniques below:

❖ **Program Compliant Tag** (*EID or PCT are required for Source & Age, Verified Natural, and NHTC Programs*)

13. Will an EID PCT be purchased from BEEFTRAXX, LLC? Yes No

14. If ALREADY purchased, from whom? (*must submit electronic EID file upon approval*)

15. When will EID PCT tags be applied to calves?

- _____ at Calving
- _____ at Branding
- _____ at Weaning
- _____ at Shipping
- _____ other: *(describe)* _____

16. If you have any leftover EID tags, please list here. These tags are not reusable for this calving group or attach an EID tag manifest.

Comments or Concerns?

Producer / Supplier Name: (print) _____

Authorized Representative: (print) _____

By signing below, you affirm that you have read and fully understand that the information provided on this form is true and correct. Upon approval, you will qualify you as a Producer / Supplier to BEEFTRAXX, LLC Process Verified Program for the calving season verified on this form only. This is a document which may be audited by a USDA/AMS representative.
